Data Science and Leadership Training

Executive Leadership

In this course, we will be exploring the expectations for great leaders and how to become an effective leader. We will delve into leadership traits and principles, effective communications, and the concept of transformational leadership.

We will also discuss key strategies for success, secrets of leadership success, and how to manage the present while creating the future. Through interactive discussions and activities, you will have the opportunity to learn how to develop the skills and strategies necessary to be an effective leader.

By the end of the course, you will have a better understanding of what it takes to be a great leader and how to develop the leadership traits and principles needed to succeed. This knowledge will equip you with the skills necessary to manage the present while creating a successful future.

About Our Trainer

Joe Martore is a Registered Professional Engineer with over 40 years of engineering and management experience. He is a subject matter expert in the areas of management systems, strategic planning, risk management, leadership development, and business growth. He provides executive level advisory consulting to Government and private industry.
