Data Science Training/Consulting and Technical Staffing Services

BeVera is your one-stop shop for all your Data Analytics requirements. BeVera's staff of Data Scientists and IT Practitioners have decades of experience delivering valuable services to both Government and Major Corporations across the nation. With a focus on practical Data Science solutions BeVera has become a trusted partner for its high-profile Government customers.

Our Services

Data Science Training – BeVera delivers Data Science training on topics ranging from Introduction to Data Science through delivering Artificial Intelligence. Our Instructors are experienced Data Scientists and Mathematicians with proven track records of successfully delivering Data Science results using SAS, SPSS and Open Source applications.

Data Science Desk-Side Support - BeVera also provides desk-side support and coaching. This support is provided by our experienced Data Scientists and IT Practitioners. This on-the-job training component dramatically increases the retention of Data Analysis techniques and principles. Customers choose to receive support on-site or virtually.

Data Science Consulting – BeVera's Data Scientists have delivered highly valuable solutions ranging from simple Data Mining through Artificial Intelligence and Natural Language Processing. Our Director of Data Science brings over 12 years of successful solution delivery for SAS Institute. Our team is highly capable of delivering practical and highly valuable solutions in the following service areas:

-Data Collection	-Data Mining/Visualization	-Prescriptive Modeling
-Data Cleansing	-Statistical Forecasting	-Artificial Intelligence
-Data Transformation	-Predictive Modeling	-Process Optimization

Technical Staffing - BeVera's leadership team is comprised of technical practitioners with decades of industry experience executing and managing the work for which our customers seek support. This enables BeVera to accurately assess the skill sets of highly technical resources and to provide guidance to those resources when they run into technical challenges on the job. BeVera provides high quality resources for the following roles:

-Data Scientists	-Web Developers	-IT Support Splsts
-Data Architects	-Sharepoint Developers	-Program Managers
-Data Analysts	-Software Developers	-Graphic Designers
-Statisticians	-Project Managers	-Admin Assistants

BeVera

Data Science Consulting and Technical Staffing

BeVera is committed to the success of our customers and our employees.   We are dedicated to becoming a Best-In-Class vendor for the Federal Government.   - Vincent Lott, CEO
